Have your Nucleus 7 Sound Processor pre-loaded with your current programs by our Cochlear Hear Always Specialists. The Ready-to-Wear service is not available for hybrid externals and certain implant types. To participate, N22 recipients must be age 5 or older and currently using a Nucleus 6 sound processor. If your clinician decides that this option is not right for you or if it is determined we are unable to program your sound processor, your Nucleus 7 Sound Processor will be shipped unprogrammed to the address you provide. If you are a bimodal recipient with a compatible ReSound hearing aid, you will need to visit your clinician to have the hearing aid and sound processor re-linked to take advantage of smart bimodal streaming.
